Tells Girls How She Found Relief From Pain

West Palm Beach, Fla.—"When I was 19 years old I was irregular and I had such terrible cramps it felt like a knife going through me. I took Lydia E. Pinkham's Vegetable Compound and I was cured. After I was married I had the same trouble caused by the added work of farming and heavy washings so I told my husband to get six bottles of the Vegetable Compound and by taking it regularly my troubles ceased and now I never have a pain or ache, and am regular. I recommend Lydia E. Pinkham's Vegetable Compound and think every young girl should take it. You can publish this letter and it may be the means of helping some other girl or woman."

—Mrs. MARY M. WAGNER, Box 759, West Palm Beach, Florida.

While no woman is entirely free from periodic suffering it does not seem to be the plan of nature that woman should suffer so severely and when pain exists something is wrong which should be set right. Every girl who suffers from monthly cramps should give Lydia E. Pinkham's Vegetable Compound a fair trial.

In these times YOU cannot afford to be forgotten

THERE never was a better time to advertise than right now. The buying power of any average family has increased since last year—everybody is earning more money.

Buying Liberty Bonds, War Savings Stamps, and paying war taxes is a stimulus and a benefit to honest business.

Advertising in America has been the call to action in recruiting and bond buying and Red Cross subscriptions.

Advertising stirs people into more rapid action.

You have seen the successes of advertising campaigns for government projects, you have seen the success of advertising in building up big businesses.

Are you using enough advertising to accomplish what you most desire to accomplish for YOUR business.

The best time to advertise is when prices are high. Are you waiting for a better time than NOW to advertise?

Eliminate advertising and you reduce buying to its barest bread and butter basis.

Advertising makes buying; without it you must SELL.

It's hard to think of a business or a commodity that isn't advertised nowadays.

The big idea is how to get the most returns for every advertising dollar spent.

The modern advertising expert is not a literary genius nor a spell-binding solicitor.

He is student.

He is busy investigating Mr. Average Consumer; his needs, his habits, his tastes and his ability to buy.

Consult with one of the recognized and accredited Advertising Agencies named below. Allow one of them to submit an outline of the service they are prepared to render. You may be assured that an invitation to call will be appreciated and that no obligation whatsoever will be incurred.
